SECTION 00100 - BIDDING SCHEDULE/INSTRUCTIONS TO BIDDERS

The following have been added by full text:

SUBMISSION AND REQUIREMENT

RFP SUBMISSION REQUIREMENTS AND INSTRUCTIONS

- A. **Description.** Modifications to existing nose dock, Building 3211 to accommodate the C17 aircraft. The project work includes extending and enlarging the hangar (approximately 5,000 SF), performing necessary structural modifications of the hangar to provide adequate clearances for the C17 aircraft, and replacement of the hangar doors. Other requirements include partial demolition and removal of the existing nose dock, interior alterations, repair to hangar floors, installation of a new high-density foam fire suppression and alarm system, electrical/mechanical/lighting/fire detection system upgrades and related site work and paving.
- B. **Acquisition Strategy.** The source selection process has been selected in order to ensure selection of the source evidencing the **lowest priced technically acceptable offer**. Offerors will be required to demonstrate, as a minimum, satisfactory Past Performances for past clients. OFFERORS ARE ADVISED THAT AN AWARD MAY BE MADE WITHOUT DISCUSSIONS OR ANY CONTACT CONCERNING THE PROPOSALS RECEIVED. Offerors should not assume they would be contacted or afforded the opportunity to qualify, discuss or revise their proposal. However, the Government may contact offerors for the purpose of clarifying aspects of the proposal. The Government also reserves the right to enter into discussions if deemed necessary, and if discussions are conducted the offerors will be afforded the opportunity to revise their proposal.
- C. **Basis of Evaluation.** This document sets forth the selection criteria and standards of acceptability and desirability in regard to the evaluation factor. The evaluation factor will be color coded in accordance with the score sheet prepared for this selection. The document further establishes an evaluation process to assist the Source Selection Board/Authority.
- D. **Evaluation Criteria.** Proposals will be evaluated based on a factor of Past Performance. Offeror's are required to provide the attached Past Performance sheets (Form A) to their previous Clients for their Client's input on their firm's Past Performance. Offerors shall submit Past Performance questionnaires on at least 3 but not more than 5 projects on recent (project constructed within the past 7 years), relevant projects, which were similar in magnitude and scope. Projects similar in scope refers to past experience in constructing reinforced concrete foundations, erecting heavy structural steel enclosures and constructing general building systems including fire protection systems. Magnitude refers to projects over \$4 million.

Your past Clients must be instructed to fax or send their completed questionnaire directly to the Corps of Engineers, Contract Specialist no later than noon-time on **14 March 2003**. Additionally, for the Source Selection Board's tracking purposes, each Offeror shall provide, with their price offer but labeled separately "*Past Performance Information*", the same Forms sent to past Clients with only the past Project Name and Location filled out as well as the Past Client's Name, Title and Phone Number.

The Government believes that an Offeror's Past Performance and the degree to which an Offeror satisfied their customer in the past is a good predictor of future performance. The Government will evaluate the quality and relevance of each Offeror's submitted Past Performance on projects within the last seven years, which were similar in scope and magnitude to this project. Relevant projects are those that are comparable in scope and magnitude to this project.

Offerors are encouraged to provide the following information in addition to the requirements listed in the ***Past Performance*** sheet: (1) Copies of any interim or final performance ratings;(2) Copies of letters of commendation from the Client/Agency of the projects submitted; and (3) Copies of letters relating to contract compliance or non-compliance from the Client/Agency of the projects submitted.

The Government reserves the right to verify the past performance record of cited projects or other recent projects by reviewing the Corps of Engineers Construction Contractor Appraisal Support System (CCASS) or to interview clients/owners or references. The Government may check any or all cited references to verify supplied information and/or to assess owner satisfaction (Past Performance). Owners/references may be asked to comment on items such as quality of construction; timeliness, management of the work; subcontractor management; including timely payment to subs and suppliers; safety; relations between owner and contractor; level of support for such things as as-built documentation, O&M manuals; training; correcting construction errors; warranty work; etc.

E. Rating Guidelines. The Source Selection Evaluation Board will color score applicable evaluation factors utilizing the banding method that follows: The following ratings will be used in evaluation of the Past Performance information.

- a. Green - Acceptable. The past performance satisfies the standards. Past Performance questionnaires in relevant projects, with similar scope and magnitude were received. All ratings were satisfactory or better.
- b. Yellow- Marginal/Neutral. Reasons for a Yellow rating may be as follows:
 - (1) a minimum requirement of 3 projects was not submitted;
 - (2) an overall rating may be satisfactory, however, past Client may have a negative comment;
 - (3) project relevancy may be questionable;
 - (4) less than 3 Past Performance questionnaires were received.
- c. Red - Unacceptable. Fails to meet stated criteria.
 - (1) questionnaires indicate poor performance or negative comments;
 - (2) projects referred to are not relevant.

Note: Offeror(s) receiving a "Red" score will be determined "Unacceptable" and not considered for award.

Note: If an Offeror(s) is not submitting Past Performance questionnaires, the Offeror(s) is required to submit a statement stating that the firm has no past performance on similar relevant projects.

F. Selection Criteria – The evaluation process essentially consists of two parts: proposal compliance review and price evaluation. The decision shall be made on the basis of an assessment of the evaluation results as a whole, in accordance with the RFP requirements. Scores shall be established as the result of a consensus of the evaluators after duly considering and documenting any minority opinion.

G. Award of Contract The Government will award a firm fixed-price contract to the, responsible, responsive offeror whose proposal represents the lowest price offer and who has not received an "Unacceptable" (Red) rating.
